Revision No : 0.0	<h1>Wooden Policy</h1>	
Issue Date : 25.11.2021		

Purpose:

To establish a Wood Control Program.

Wooden Piece in a food preparation is a serious physical hazard and could cause injury or death to the consumer.

Scope:

The following procedures shall be adhered to by all unit staff personnel to prevent possible food safety hazards.

Program Requirements:

1.0 Control

- The Use of wood shall be kept to a minimum at all times, exceptions to this are when packing onto wooden pallets.
- Wooden pallets shall be taken only in despatch area sufficient to meet Finished Goods storage requirements only.
- All pallets shall be fit for their purpose and shall be checked on receiving at site and again by production operatives prior to packing on to them.
- All pallets shall be free of large splinters, glass and any other potentially contaminating matter and with no protruding nails at the time of use.
- Wooden splinters shall be disposed of as per the procedure.
- Damaged wooden pallets shall be reported to maintenance and removed from stocks and repaired or disposed off.
